# The Wonder of Why

**From devastating bushfires and COVID-19 to global civil unrest and mass protests – there is no doubt 2020 was a challenging year and the world has changed in the past 12 months.**

World Science Festival Brisbane has had to change also, so some things will be different in 2021 – we have made more of our program available online, we're avoiding mass gatherings and everyone will have to check in at events.

But this is the new normal, and we'll get there together. No matter what, now is the time to celebrate science!

In many cases what seemed like abstract ideas last year are now our everyday stark reality. What have we learnt? How will science lead us out of our current dilemmas? What were the warning signs?

More than ever, we turn to science, technology and human curiosity to help us understand our circumstances and learn how we and nature might adapt to the new reality confronting us.

This year's festival celebrates the wonder of 'why', with a program placing the spotlight on insightful and challenging conversations and an escape to new and entertaining experiences.

Explore the full program at **[worldsciencefestival.com.au](http://worldsciencefestival.com.au)** plan your festival experience and join us either in person or online!

## **Book Tickets**

Book online at **[worldsciencefestival.com.au](http://worldsciencefestival.com.au)**

## **Bundle 4+ Tickets and Save**

**Buy a bundle of 4 or more tickets to selected events in one transaction and receive 20% off!**

Please note, this discount applies only to selected events.

Visit [worldsciencefestival.com.au](http://worldsciencefestival.com.au) to find out more.

## **Acknowledgement of Country**

In keeping with the spirit of reconciliation and on behalf of Queensland Museum Network, we acknowledge the First Peoples – the Traditional Owners of the lands where we live and work. We recognise their continuing connection to land, water and community. We pay respect to Elders – past, present and emerging – and acknowledge the important role Aboriginal Peoples and Torres Strait Islanders continue to play within World Science Festival Brisbane and Queensland community.

## **Welcome**

**The last year has shown that when we face great hardships, we also demonstrate unwavering fortitude – 2020 was certainly a year of enormous challenges across the world but importantly, it was also a time of great opportunity, great innovation and great scientific achievement. It was a year that started with bushfires and ended with the COVID-19 pandemic.**

World Science Festival Brisbane offers an unparalleled platform to interrogate and understand our changing world; to reflect on the human impact; and to showcase the wonder, opportunity and complexity of science in our everyday lives. It dares us to imagine what we want our future to be, and how science can make it possible.

The festival brings people together to share their experiences, excitement and ideas – and to learn from science leaders and some of the world’s most innovative thinkers. It is a festival that both challenges and connects people.

It is through this lens that we have created the 2021 program. This year we have increased our online presence and developed new and innovative digital offerings. We have also increased regional programming to reach the communities of Chinchilla, Gladstone, Toowoomba, Townsville and Ipswich throughout the year.

Our programming aims to inspire a sense of wonder and excitement in science, technology, engineering and maths – to inspire the next generation of thinkers, leaders and innovators who will need to take up future challenges faced by our society.

Developing and staging such an important festival would not be possible without the ongoing support of the Queensland Government, our generous partners and supporters, and our wonderful Queensland Museum and WSFB staff, volunteers, and of course our colleagues from World Science Festival in New York. I sincerely thank all of you. Despite the many challenges this year, we have worked together to keep things moving forward, we have found innovative solutions and we've stood by each other. I have never been prouder.

At Queensland Museum our aim is to be a network of museums without borders that inspires curiosity to connect to the past, make sense of the present and help navigate the future in our communities, classrooms and online. This focus has never been more important, and WSFB is critical to this journey.

Welcome to World Science Festival Brisbane 2021!

**Dr Jim Thompson**  
**Chief Executive Officer**  
**Queensland Museum Network**

## **Welcome to the 2021 World Science Festival Brisbane!**

Now is the perfect time to celebrate the advances and wonders of science. In the past year we have seen the global scientific community come together to conduct research in virology, pathology and pandemic responses, to help create effective vaccines for COVID-19.

Each year, World Science Festival Brisbane garners an increased interest, and this will be especially true in 2021.

This year's festival will continue to inspire, ignite discussions and create a curiosity for people of all ages. In a world transformed by coronavirus (COVID-19), the festival will have a new look for the City of Science events. Festival activities will take place throughout Brisbane, from the Cultural Centre all the way to Mount Coot-tha.

For the first time many programs will be offered digitally via conversations, podcasts and audio tours. Audiences will be able to tune into 24-hour live streaming of turtles hatching, providing opportunities for all Queenslanders to become involved.

For events beyond Brisbane, World Science Festival Queensland will offer an extended program throughout 2021, so communities in Chinchilla, Gladstone, Toowoomba, Townsville and Ipswich can once again experience the wonders of the festival.

Since 2016, when World Science Festival Brisbane was added to the It's Live! In Queensland tourism calendar, the annual event has attracted more than 700,000 visitors and has injected more than \$32 million into Queensland's economy. It has also become a key feature of a larger celebration known as Curiosity Brisbane, a festival that embraces creativity, innovation, science, technology and art.

The Palaszczuk Government supports this landmark event, the only World Science Festival held outside of New York, to celebrate science and explore our world. We invite you to experience and explore the exciting and inspiring 2021 World Science Festival Brisbane program.

**The Honourable Anastacia Palaszczuk MP**  
Premier of Queensland and Minister for Trade

**The Honourable Leeanne Enoch MP**  
Minister for Communities and Housing,  
Minister for Digital Economy and Minister for the Arts

**The Honourable Stirling Hinchliffe MP**  
Minister for Tourism Industry Development  
and Innovation and Minister for Sport

Brisbane has earned a reputation as an Asia Pacific hub for science and innovation and we are proud to host the brightest minds from across Australia at the World Science Festival Brisbane.

Showcasing Brisbane's world-class research and technology institutions, the festival has grown to be a popular fixture on Brisbane's annual events calendar.

While this year will be a little bit different due to the coronavirus pandemic, we are excited to be able to deliver yet another diverse and educational array of events, hosted across Brisbane's cultural precinct.

While you're here I encourage you to explore the things that make Brisbane such a sensational place to live, whether it's outdoor dining, river kayaking or our peaceful parklands.

Enjoy the World Science Festival Brisbane.

**Adrian Schrinner, Lord Mayor of Brisbane**

# About the Festival

Hosted by Queensland Museum, World Science Festival Brisbane 2021 will traverse an extraordinary science journey with a new and improved program. But things are slightly different this year ... more of the program will be available online, some conversations will be live-streamed, we're avoiding mass gatherings and everyone will have to check in at events.

This program is designed to act as your guide. For more detailed information, to plan your festival experience, explore the full program and book tickets where needed visit [worldsciencefestival.com.au](http://worldsciencefestival.com.au)

## City of Science

This year Brisbane will be the *City of Science* in a city-wide, free, five-day science extravaganza!

This action packed program includes hands-on workshops, science storytelling and audio tours to experiments and big bangs – *City of Science* is for the whole family.

From South Bank to Mt Coot-tha *City of Science* will span Brisbane far and wide. Join us as the festival steps outside of our usual footprint and takes science to the streets of Brisbane.

Remember – all events are free but some do require bookings.

## Presented with BHP

## Conversations and Talks

In 2021, experts will come together to explore the contribution science makes to our very existence as they examine and celebrate what we know, what we don't and those working to find out more.

This year our conversations and talks will cover everything from the global pandemic and mining the moon to future cities. From Disrupting Bushfires to the Science of Beer, there is something for everyone!

Plus, this year many of our conversations will be available to live stream, and some will be recorded in advance for you to watch online.

## **The Nucleus**

On the banks of the Brisbane River a short walk from Queensland Museum – The Nucleus will be the centre of festivities! A lounge room meets laboratory with diverse and fun programming from conversations and trivia to comedy. Plus, live music and family programming throughout the day.

The Nucleus is the festival's designated hang out spot and will be relaxed, informative and ... super sciencey.

Bring the kids during the day or enjoy an afternoon drink as the sun sets, we've got you covered. Remember – all events are free and no bookings are required.

## **Digital program**

This year we are doing things a little differently, and we're excited. World Science Festival Brisbane has been working with Griffith Film School's LiveLab to pre-record some of our most interesting conversations. This means you don't have to leave the comfort of your own home, you don't need to buy a ticket and you can watch on the go whenever it suits!

Several conversations will be available to watch via **[worldsciencefestival.com.au](http://worldsciencefestival.com.au)** from Wednesday 24 March. Watch one or binge them all and share them with your friends! Plus we'll have podcasts, audio tours and more.

## **Queensland Museum events**

Queensland Museum is the beating heart of the festival, with daily activities and talks from our leading researchers, scientists and photographers. Join us as they showcase some of their unique and fascinating work and share insights about their areas of expertise.

Learn about ancient sea monsters, trapdoor spiders and what exactly is scientific illustration? Plus, explore our latest exhibition *Sea Monsters*:

*Prehistoric Ocean Predators*. This is your chance to learn more about what really goes on inside the museum!

## **Brian Greene**

Brian Greene is a professor of physics and mathematics at Columbia University and is widely regarded for his ground-breaking discoveries in mathematical physics and superstring theory. He is the director of Columbia's Center for Theoretical Physics and with producer Tracy Day is the co-founder of World Science Festival.

Each year Brian brings his signature events to Brisbane and while he won't be here in person, this year is no exception.

Join Brian on a cinematic journey from the big bang to the end of time, Brian Greene will appear live on screen from New York State following the world premiere of his film *Until the End of Time*.

## **Return to Planet Earth**

Fasten your seatbelts and prepare for lift-off as we journey through time and space to the outer limits of the universe – and back to Earth in time for dinner. Inspired by Carl Sagan's Pale Blue Dot, creative storyteller Jenna Robertson joins forces with composer Corrina Bonshek and the Sir Thomas Brisbane Planetarium to deliver a mind-blowing multimedia immersion that promises to inspire, educate and enthral audiences of all ages.

This festival original will take you on a round trip from our tiny blue planet, through galaxies, past super novas to the farthest reaches of our known universe, before returning to the pale blue dot that we call home.

## **Presented with Sir Thomas Brisbane Planetarium**

### **The Hatchery**

Catch a rare glimpse of turtles hatching in their incubation chambers and the first moments of their ocean lives as they meet a seawater environment in specially designed tanks!

The festival's annual turtle hatching is an important conservation initiative

that allows intimate access to Australia's precious loggerhead turtles.

After the festival, the newborn turtles will be transported to the Sunshine Coast and released 20 km offshore.

The Hatchery will be live streamed with support from AARNET.

# **Digital program**

Presented with BHP Foundation

**This year more festival content will be available online – all free. This means you don't have to leave the comfort of your own home, you don't need to buy a ticket and you can watch whenever suits. There will be podcasts, audio tours, pre-recorded conversations and more!**

## **Rising Tides, Searing Heat: Indigenous Australians and the Climate Crisis**

Why is the wider community not listening to Indigenous peoples on the climate crisis? Climate change will affect our lives in so many ways, but for many Aboriginal and Torres Strait Islanders the threat is already a devastating reality. As sea levels rise, the tides are swallowing parts of low lying island communities, submerging thousands of years of culture, history and place.

## **Disrupting Bushfires**

Why do we need robots to fight the fires? Our panel of fire-savvy specialists look to the past, present and future for ways to survive the current 'Pyrocene'. How can we combine the knowledge and skills of traditional owners with cutting-edge technologies such as satellites, artificial intelligence and drones, to protect our sunburnt country?

## **How to Change the World**

Why are young people our greatest hope? The world is changing – fast. Before we know it, today's teenagers will be shaping their own world from positions of power and possibility. The world is changing inexorably and exponentially. In the hands of today's youth, there is hope for tomorrow. A bright future is possible.

## **Mind Altering Medicines**

Why is tripping trending in medicine again? Almost 60 years after psilocybin was banned, researchers at John Hopkins University in the

USA suggest that magic mushrooms can treat cancer-related psychiatric distress, depression, anxiety and addiction. Take a trip into the world of hallucinogens as our scientific researchers reveal insights from Australia's first psilocybin clinical trials.

### **The Moon is Mine: A Hypothetical**

Why can't I own a piece of the moon?

It's 2030 and space tourism is thriving. Aussie entrepreneurs have their eyes set on a supply of Helium 3 located on the far side of the moon ...

A cast of politicians, scientists and business leaders run through a hypothetical minefield as the race ignites to mine the moon!

### **The Hatchery Augmented Reality**

WSFB has teamed with one of the animators of 'Bluey' Beth Durack, to bring you this digital experience. Use your mobile device to see uber-cute animated baby turtles swim around you, as they go on a journey of a lifetime. Simply scan the QR code to launch the Augmented Reality!

To launch the Augmented Reality simply scan this QR code

Keep AR code in view

### **Self-Guided Audio Tours**

Experience Brisbane through immersive self-guided audio trails. Put your headphones on to begin an audible adventure through local histories, soundscapes and interviews with experts.

**Presented with Folklore Studio**

## **5 with 5 Podcast**

Have you ever found yourself at a crossroads that lead to a chance encounter? What if that moment leads to an amazing discovery? In this WSFB podcast, Dr Rob Bell takes 5 minutes with 5 fascinating experts and discovers their 'sliding doors' moment.

**Presented with Folklore Studio**

## **Cool Jobs**

Come behind the scenes in a series of short films of experts who use science to do some of the coolest jobs on the planet. They'll share their exciting journey, and explain how following their dreams has led them to the most amazing jobs in the world.

**Conversations will be available to watch via [worldsciencefestival.com.au](http://worldsciencefestival.com.au) from Wednesday 24 March.**

**Watch one or binge them all and remember to share with your friends!**

**AI HUB**

<b>EVENT</b>	<b>VENUE</b>	<b>DATE</b>	<b>TIME</b>	<b>COST</b>
Cultural Champions in the Age of AI – AI, Culture and Creativity	The Precinct, TC Beirne Building, Fortitude Valley	Saturday 27 March	10am–11.30am and 12.30pm–2pm	Free, non-ticketed
Unleash your (Disruptive) Tech Geek! – AI & Robotics	The Precinct, TC Beirne Building, Fortitude Valley	Sunday 28 March	9am–12pm and 2pm–4pm	Free, non-ticketed

### THE HATCHERY

EVENT	VENUE	DATE	TIME	COST
The Hatchery: Turtle Conservation Experience	L4, Queensland Museum	Wednesday 24 – Sunday 28 March	9am–4pm daily	Free, ticketed

# City of Science

Presented with BHP

## QUEENSLAND MUSEUM

Queensland Museum is the beating heart of World Science Festival Brisbane.

## LUNCHTIME LABS

Queen Street Mall comes alive with the wonder of science at the Lunchtime Lab.

## LIBRATORIUM

Over five days, five libraries will feature five popular strands of science with activities tailored to inquisitive young minds.

Presented with Brisbane City Council.

## MT COOT-THA

A suite of events, tours and activations!

## THE NUCLEUS

A family-friendly hub of activity and experiment for all ages. As the sun sets, the grown-ups will take over.

## TERRA FIRMA

Explore four activity stations each exploring different topics and sciences from the world beneath the Earth's surface.

FREE | 24-28 March | Cultural Precinct. Presented with BHP.

## CURIOCITY BRISBANE

A 17-day celebration of science, art and tech, where new possibilities play and big ideas collide. Find out more via [curiocitybrisbane.com](http://curiocitybrisbane.com)

## OTHER ACTIVITIES

Check out the full program and plan your festival experience at [worldsciencefestival.com.au](http://worldsciencefestival.com.au)

# Wednesday 24 March Program highlights

## Conversations

### Until the End of Time

7.30pm–9pm | Concert Hall QPAC | Adult \$35, Concession \$30,  
Live stream \$10

World renowned physicist, Brian Greene has created a cinematic journey from the big bang to the end of time, exploring how lasting structures formed, how life and mind emerged, and how we grapple with our existence through narrative, science, the quest for truth, and a deep longing for the eternal. He joins ABC's Jonathan Webb live on screen from New York State following the premiere of the film for a Q&A.

## Queensland Museum events

### Place Invaders

9.30am–4pm | L2, Queensland Museum | Free, non-ticketed

It's Queensland's close encounters of the invasive species kind! Play Place Invaders, a fun 80s inspired game developed by Queensland State Archives. Use your mobile phone to stop invasive plants and animals from taking over and learn about them as you go.

### Creative Climate Changers Exhibition

9.30am–4pm | Theatrette, Queensland Museum | Free, non-ticketed

This exhibition is an insightful and optimistic reflection on the impacts the current climate crisis is having on our society, told through the intimate storytelling of three unique artists. Through conceptual art, installation art and contemporary opera this exhibition aims to encourage diverse and new narratives – highlighting action on climate change can take different forms.

### Conservation in Action

9.30am–4pm | L2, Queensland Museum | Free, non-ticketed

See how museums care for their collections – live! Conservation is a field of applied science based on chemistry and materials science –

predicting, preventing and slowing the natural deterioration of objects and specimens. Each item holds unique information about its life and conservators aim to preserve all this information for future generations.

**Delve Into Frog's Hollow, Brisbane's First Red-Light District**  
**10am–2.30pm | L2, Queensland Museum | Free, non-ticketed**

Join Queensland Museum archaeologists as they identify hundreds of artefacts recently excavated from Albert St, the site of Brisbane's first red-light district. Undertaken as part of the Cross River Rail project, artefacts range from opium picks to dinner sets and alcohol bottles, providing us with insight into the lives of the people who lived in Frog's Hollow.

**City of Science** Presented with BHP

**Culture of Plants**

**9am–5pm | Queensland Herbarium, Brisbane Botanic Gardens, Mount Coot-tha | Free, non-ticketed**

The Queensland Herbarium is the centre for science, research and information on Queensland's ecosystems and species of plants, fungi, algae and animals. From Wednesday to Saturday, drop in and discover the fabulous exhibit prepared by the biodiversity scientists.

**Explosive Science!**

**12pm–1pm | Queen Street Mall Upper Stage, Brisbane City | Free, non-ticketed**

Come along and put a little bing, bang, boom into your lunchtime with a spectacular science show for all the family. From fireballs to instant clouds and lots of explosive gases, it's a feast for your eyes, ears and brain. Be entertained, be amazed and maybe even be involved!

**Dr Karl's Surfing Safari**

**12pm–1pm | View this event live at [www.facebook.com/BrisbaneLibraries](https://www.facebook.com/BrisbaneLibraries) | Online only**

Dr Karl is surfing the Universe for all that's gnarly, awesome, weird and wonderful. This event will be livestreamed on the Library Facebook page

– join in from the comfort of your own home and get your questions ready for Dr Karl!

### **WSFB Art Trail**

Explore a collection of inspiring and thought provoking large scale outdoor public artworks throughout the Cultural Precinct – look out for a giant Ibis made of rubbish, a recycled timber Koala and a woven interpretation of ‘warming stripes’.

### **WSFB Education program**

We’re excited to welcome teachers and students back to the festival to participate in our annual education program with a great line up of conversations and activities – especially programed to engage with primary and secondary school students.

From conversations with leading astrophysicists to unpacking the complexities of living in a global pandemic, the topics and sessions are exciting and varied.

This year we have made sure most of our educational program is linked to the curriculum ensuring educational experiences support your students STEM learning.

Now is the time to celebrate science, we hope you can join us!

Explore the full education program at  
**[worldsciencefestival.com.au/education-program/](https://worldsciencefestival.com.au/education-program/)**

**The WSFB Education Program is presented with QPAC**

# Thursday 25 March Program highlights

## Conversations

### **Cities 2060**

**6pm–7.30pm | Concert Hall QPAC | Adult \$35, Concession \$30,  
Live stream \$10**

Why is it so important to plan for 2060 now? By 2060 Australia's population will have reached 40 million. Two-thirds of us will live in one of the four largest cities and determining what those cities look like will require some seriously creative blue-sky thinking. Discover how today's science and technology can contribute to a better way of life and shape the cities of the future.

**Presented with Griffith University**

### **Exploring Hyperspace: A Virtual Reality Experience**

**9am, 10am, 11am and 12pm | Adult \$50, Concession \$40**

In this live interactive virtual reality experience, physicist and World Science Festival co-founder Professor Brian Greene will guide a group of explorers through topics including extra dimensions, unified field theory and the multiverse. Together, they will grapple with abstract concepts and higher dimensional objects that challenge the imagination and stretch the bounds of what's possible in the real world. For more information visit [worldsciencefestival.com.au](http://worldsciencefestival.com.au)

**City of Science** Presented with BHP

### **The Science of Happiness**

**12pm–1pm | Queen Street Mall Upper Stage, Brisbane City | Free,  
non-ticketed**

What puts a smile on your dial? From chocolate and music to cute videos of kittens, some things just make us happy. But why, and what is going on inside our brains when we experience such joy? We've paired a dancer and a scientist to unravel all of this in fun-filled lunchtime that is sure to leave you smiling.

## **Space Exploration**

**3.30pm, 4.30pm, and 5.30pm | New Farm Library, Sydney Street, New Farm | Free, ticketed**

Do you dream of going to space? How will you get there? Our expert Rocket Engineer will answer all of your questions, and then you can launch your own bottle rocket, thanks to *It's Rocket Science*.

## **Curiocities**

**12–28 March | 8am–8pm | Various | Free, non-ticketed**

Walk a 6.5km circuit connecting the City Botanic Gardens, South Bank, Cultural Precinct and the CBD to explore more than 60 Curiocities, including 30 world and national premieres along with contributions from six Queensland schools. Visit **curiocitybrisbane.com** for more information.

## **The Nucleus**

### **DJ Black Amex**

**5pm–5.45pm | Free, non-ticketed**

DJ Black Amex plays a groove-driven mix of disco, funk, house and rare remixes and edits. An avid vinyl collector and freewheeling selector. Never playing the same set twice, DJ Black Amex always looks to bring the crowd on a journey of vibe and groove!

## **Queensland Museum events**

### **CoralWatch**

**9.30am–4pm | L2, Queensland Museum | Free, non-ticketed**

You can help protect the Great Barrier Reef! CoralWatch, a global citizen science program based at The University of Queensland, integrates coral health monitoring with education and outreach to create reef awareness and save corals for our future generations.

### ***Sea Monsters: Prehistoric Ocean Predators***

**Until 3 May 2021 | 9.30am–4.30pm | L3, Queensland Museum | Adult \$15.50, Concession \$13.50, Family (2A + 2C or 1A + 3C) \$46**

While dinosaurs may have ruled the land, giant marine reptiles hunted the depths of the sea.

What can their fossilised bones tell us about how they lived? How do they compare to today's top ocean predators? Discover the secrets of these monsters of the deep!

### **The Hatchery: Turtle Conservation Experience**

**Wed 24 – Sun 28 March | 9am–4pm daily | L4, Queensland Museum | Free, ticketed**

Catch a rare glimpse of turtles hatching in their incubation chambers and the first moments of their ocean lives as they meet a seawater environment in specially designed tanks! After the festival, the newborn turtles will be transported to the Sunshine Coast and released 20 km offshore. The Hatchery will be live streamed with support from AARNET.

### **The Nucleus** River Plaza, Queensland Cultural Centre

#### **Sustainability in Art & Design**

**6pm–6.45pm | Free, non-ticketed**

Art and design are responsible for a creative and an environmental footprint. Whether creating large scale outdoor festivals, considering set materials or exploring energy generation and consumption – the environmental impact of our creative endeavours must influence our practice. Meet creative minds bringing sustainability to art and design.

#### **Dangerous Song**

**6.45pm–7pm | Free, non-ticketed**

Dangerous Song is a response to the current 6th extinction crisis, combining human voice with the sounds of endangered and extinct animals. Through music and the sound of real animal calls Linsey Pollak speaks directly to the heart in a way that words cannot, while Lizzie O'Keefe weaves her voice in and out of this musical landscape.

## **Curious Conversations Hosted by Benjamin Law**

**7pm–8pm | Free, non-ticketed**

Mycelium is vital to our soils – for breaking down organic material for reuse and are a vital communication and nutrient network supporting 92% of the earth's flora.

Explore this hyper connected underworld of mycelium with artists and naturalists Tara Pattenden, Steve Axford and Catherine Marciniak.

**Presented with Curiosity Brisbane**

## **Creative Collisions**

**8.15pm–9pm | Free, non-ticketed**

What happens at the intersection of science and art? Is the creative mind so different from that of a scientist or researcher? In these short, sharp sessions we'll learn about the melding of minds to create some truly inspiring outcomes. Join us to explore these unlikely alliances and their creations.

# **Friday 26 March** Program highlights

## **Conversations**

### **Running the Planet Without Costing the Earth**

**6pm–7.30pm | Concert Hall QPAC | Adult \$35, Concession \$30,  
Live stream \$10**

Why should we switch to clean energy? In a post-fossil-fuel-future it's going to take more than a couple of solar panels on everyone's roofs to meet the energy needs of a growing population. Energy experts explore the path to a sustainably future and reveal some of the ground-breaking solutions that just might save our planet.

**Presented with QUT**

## **Films** Presented with QAGOMA

### **Dosed 2019**

**6pm | GOMA Cinema | Adult \$12, Concession \$10**

A chapter in the ongoing discussion on the use of psychoactive substances to treat mental ill-health. *Dosed 2019* follows chronic heroin user Adrienne as she attempts to get free of her addiction using magic mushrooms and iboga. A powerful and honest portrait of active drug addiction and the lengths someone will go to be free of dependence.

### **Fear and Loathing in Las Vegas**

**8.30pm | GOMA Cinema | Adult \$12, Concession \$10**

Terry Gilliam's adaptation of Hunter S. Thompson's novel unfolds as a delirious road trip across the Nevada desert to the hotels of Las Vegas. What begins as a journalistic assignment for Duke to cover a motorcycle race is a fevered experimentation with the creative and mind expanding capabilities of psychoactive drugs.

## **The Nucleus** River Plaza, Queensland Cultural Centre

### **A Lighter Side of Science**

**7pm–9.30pm | Free, non-ticketed**

A science variety night like no other – with trivia, comedy and bizzarro science stuff, you're up for an unforgettable evening of mind-boggling, jaw-aching, simulated science-silliness! Drop in anytime to enjoy liquid libations, play quick rounds of smart phone trivia and learn about the stranger side of science and listen to some cool tunes.

### **Paulina**

**4.30pm–5.15pm | Free, non-ticketed**

The foundations to 16 year old Paulina's artistry are found in her parents CD collection, artists such as The Beatles and Crowded House. Stunning her parents by performing at an early age she has been singing and playing the guitar ever since.

## **Beauty & The Beats**

**5.30pm–6.30pm | Free, non-ticketed**

*Beauty & The Beats* is a Brisbane-based acoustic R&B group creating an explosion of pop-inspired, R&B acoustic music mixed with rap. Enjoy intricate playing of the guitar, grounded by the bass of the Beatbox as sweet melodies float to your ears, this is one unique musical recipe you'll want to hear!

## **City of Science** Presented with BHP

### **Science Lunch with Dr Karl**

**12.15pm–1pm | Queen Street Mall Upper Stage, Brisbane City | Free, non-ticketed**

Imagine if eating made you smarter? That dream can come true if you spend your lunchtime listening to Dr Karl. Australia's most loved scientist will be on hand to answer your burning questions about life, the universe and ... anything really. Bring a sandwich and a question (and maybe one of his books if you'd like it signed).

### **Spiders Fun**

**3.30pm–6pm | Wynnum Library, Florence Street, Wynnum | Free, non-ticketed**

Why are spiders so special? Dr Robert Raven, Queensland Museum Arachnologist (that's a spider expert!) will be on hand to tell you all about his hairy 8-legged friends. You also get to create your own spider (from Lego).

### **Return to Planet Earth**

**Wed 24 – Sun 28 March | Various times | Mount Coot-tha Rd, Toowong | Adult \$25, Concession \$20**

Fasten your seatbelts and prepare for lift-off as we take a round trip from our tiny blue planet, through galaxies, past super novae and into the farthest reaches of our known universe, before returning to the pale blue dot that we call home.

**Presented with Sir Thomas Brisbane Planetarium**

## **Terra Firma**

**24–28 March | Cultural Precinct | Free**

We evolved out of the earth beneath our feet. The plants that sustain us grow out of it and valuable resources lie within it. It holds the secrets of our past, and through science it can inform our path towards a sustainable future. Explore four activity stations each exploring different topics and sciences from the world beneath the Earth's surface.

**Presented with BHP**

## **Curiocity Brisbane**

### **The Residents**

**12–28 March | 8am–8pm | View from the Goodwill Bridge | Free, non-ticketed**

Recent sightings of prehistoric reptiles swimming in the Brisbane River have stirred excitement among curious locals. Passers-by claimed the creatures were up to 12 metres long with massive heads, short necks, powerful jaws and large teeth...

Catch a glimpse of artist Craig Walsh's stylised, high-definition projections of prehistoric creatures known to have inhabited the Brisbane River (Maiwar) millions of years ago!

Presented with Curiocity Brisbane

## **Queensland Museum events**

### **A Night at the Museum**

**5.30pm–8.30pm | Queensland Museum | Free, non-ticketed | Adult \$35, Child \$15, Family (2A + 2C) \$80**

Back this year by popular demand! Join Dr Karl Kruszelnicki and find out why it's safer for a cat to fall from a 32-storey building than a 7-storey building, get the low-down on the Bermuda Triangle, and how come wombats poo out about 90 little cubes (yes, cubes) each day!

Recommended for families with children aged 4-12.

# **Saturday 27 March** Program highlights

## **Conversations**

### **The Pulse of the Pandemic**

**11am–12.30pm | Concert Hall QPAC | Adult \$35, Concession \$30, Live stream \$10**

At the time of writing, Australia appears to be coming out of the worst of the pandemic while the USA and Europe descend into pandemonium. On the first anniversary of social distancing and lock downs, we draw out the lessons of the past in order to pandemic-proof our future.

**Presented with The University of Queensland**

### **Why Trust a Scientist?**

**6.30pm–8pm | Concert Hall QPAC | Adult \$35, Concession \$30, Live stream \$10**

In a world where misinformation and mistrust thrive, science is under attack. Our trustworthy panel of real and genuine scientists, historians and communicators examine how we arrived at this place of mistrust, what happens if it continues, and how we can do our bit to stand up for science.

## **Queensland Museum events**

### **GroundTruthVR**

**9.30am–4pm | Level 2, Void, Queensland Museum | Free, non-ticketed**

Take the pilot seat of a satellite orbiting high above Queensland's infinite vistas GroundTruthVR utilises high resolution satellite and aerial imagery in a virtual reality environment.

### **Ancient Sea Monsters with Espen Knutsen**

**11am–12pm | Level 2, Theatre, Queensland Museum | Adult \$18, Concession \$15**

Join Queensland Museum Paleontologist Dr Espen Knutsen to learn about prehistoric monsters of the deep!

### **Trapdoor spiders with Michael Rix**

**1.30pm–2.30pm | Level 2, Theatre, Queensland Museum | Adult \$18, Concession \$15**

Join Arachnologist, Dr Mike Rix and immerse yourself in the world of trapdoor spiders – the master architects of the spider world.

### **After Dark**

**5.30pm–8.30pm | Queensland Museum | Adult \$35**

From live music, sea monsters origami and a live animal display from Geckoes wildlife rangers. To expert palaeontologists and roaming the museum at night – this adults only event is not to be missed!

### **City of Science** Presented with BHP

#### **Brisbane Catchments Network events**

**9am–4pm | Sustainability Centre, 1358 Old Cleveland Rd, Carindale | Free, ticketed and non-ticketed**

Pop into the sustainability centre and learn about bush tucker, wildlife corridors, habitat creation, native bees and sustainable gardens.

#### **West Village events**

**10am–3.30pm | West Village, Boundary St, West End | Free, non-ticketed**

Are you passionate about how to improve your way of living and how to reduce your impact on our planet? Explore these events dedicated to families who want to live greener.

#### **Presented with West Village**

#### **Mt Coot-tha events**

**9am–8.30pm | Brisbane Botanic Gardens, Mount Coot-tha | Free, ticketed and non-ticketed**

With a suite of free events, tours and activations – Mt Coot-tha will be under the microscope like never before!

## **Earth Hour concert**

**8.30pm–9.30pm | Upper Eastern Terrace (Outside L2 entrance to Queensland Museum) | Free, non-ticketed**

Celebrate Earth Hour with four choirs, conducted by Emma Dean – who will sing a collection of songs exploring science, the universe and the environment.

## **The Nucleus** River Plaza, Queensland Cultural Centre

### **Sport and Science**

**10am–10.45am | Free, non-ticketed**

Watching it, reading about it, or playing it – did you know that maths and science are behind all of your sport activities? Learn about angles, forces, equations in sport!

### **The Big Bang Show**

**11am–11.45am | Free, non-ticketed**

The Big Bang Science Show brings to life the science that surrounds us every day. Explore phenomena such as forces, air pressure, states of matter and more – guaranteed to engage and inspire students of all ages.

### **Young People Power**

**12pm–12.45pm | Free, non-ticketed**

Generation Z have grown up in a world unlike that of any other generation. Join Gen Z business leader Scott Millar as he explores the power of this group!

### **Paper Scissors – Rock!**

**1pm–1.45pm | Free, non-ticketed**

Linsey Pollak makes music by live-looping self-invented instruments such as a paper clarinet, a drinking straw oboe, a Cylisax and a rubber glove bagpipe.

## **Big Bangaboom**

**2pm–2.45pm | Free, non-ticketed**

In this science show all rules are broken. Hands will be set on fire, explosions will rock the building, water coolers will become subversive volcanoes and mega soap explosions will cleanse any preconceptions of what science can be!

## **Graham Moes**

**3.30pm–4.30pm | Free, non-ticketed**

Singer-songwriter and producer Graham Moes has a uniquely rhythmic and soulful looping sound, combining flavours of roots music, modern electronica and gritty blues guitar.

## **Science (in) Fiction**

**5pm–6pm | Free, non-ticketed**

This panel will explore the role of fiction in communicating scientific facts – as a means of contextualising ideas, applying them to everyday lives, and reaching more-diverse audiences.

## **Ockham's Razor with ABC Science**

**6.30pm–8.30pm | Free, non-ticketed**

ABC Science returns to Brisbane for a special recording of Ockham's Razor. Ockham's Razor is a soapbox for all things scientific: stories, insights, arguments or tributes – expect a jam-packed afternoon of short talks that will intrigue, excite and inspire!

**Presented with ABC Science**

## **Films** Presented with QAGOMA

### **Oliver Sacks: His Own Life**

**1pm | GOMA Cinema | Adult \$12, Concession \$10**

A celebrated neurologist and one of the world's most beloved science writers – Sacks' life and work is explored in this new documentary.

## **Hunting for Hedonia**

**3.30pm | GOMA Cinema | Adult \$12, Concession \$10**

Examining the recent revival of the medical technique Deep Brain Stimulation (DBS). If DBS can manipulate the human brain, might medicine have the power to change a person's personality and emotions?

## **Sunday 28 March** Program highlights

### **Conversations**

#### **Science vs Politics**

**11am–12pm | Concert Hall QPAC | Adult \$35, Concession \$30,  
Live stream \$10**

Scientific rigour doesn't always survive in a political system based on popularity and self-preservation. And we don't have to look far to find examples of policy making that elevates economic or electoral essentials over environmental or health imperatives. Two ex-politicians reveal the behind-the-scenes machinations that occur when government is faced with scientific evidence that informs policy and action.

#### **Hunting the Cosmic Dawn**

**3pm–4.30pm | Concert Hall QPAC | Adult \$35, Concession \$30,  
Live stream \$10**

We know it all started with a big bang. But what happened after that? And where are we heading from here?

Join a constellation of astrophysicists as they shine new light into the cosmos to determine what the first stars looked like, the nature of dark energy and the future of the universe.

**Presented with The University of Queensland**

#### **Griffith Review 71: Remaking the Balance**

**1pm–2pm | Ian Hanger Recital Hall, Queensland Conservatorium |  
Adult \$35. Concession \$30**

How will we change what we do with what we have?

Join *Griffith Review 71: Remaking the Balance* contributors including Ian Lowe and Sophie Cunningham and Editor, Ashley Hay as they explore the ways in which our changing relationships with resources are changing what we do with all that's animal, vegetable and mineral – as well as with less tangible commodities such as memory, stories and hope.

## **City of Science** Presented with BHP

### **Tree planting**

**8am–11am | North Brisbane, 7th Brigade Park, Chermside | Free, ticketed**

**AND**

**8am–11am | South Brisbane: Minnippi Parklands, 139 Stanton Rd, Tingalpa | Free, ticketed**

WSFB and the Brisbane Catchment Creek are on a mission to offset the festivals carbon emissions! Join us as we plant trees to create a fauna habitat, increase ecological sustainability and protect Brisbane's biodiversity.

### **City of the Future workshops**

**9am–4.30pm | The Edge, State Library of Queensland | Ticket \$10**

BOP Industries is a technology and education company on a mission to inspire the next generation of Digital Creators. Join a hands-on workshop where you and your family will practice your user-centred design skills to problem solve, innovate and create.

### **Substation 33 events**

**10am and 12pm | Substation 33, Mary St, Kingston | Free, ticketed**

Have you ever wondered what to do with your old electronics when you have finished with them? Up-skilling and up-cycling activities include 3D printer building, making rechargeable torches or vertical gardens from e-waste.

## **AI Hub events**

**9am–4pm | The Precinct,**

**TC Beirne Building, Fortitude Valley | Free, non-ticketed**

Step inside The Precinct, join a session and take a deep dive into ‘disruptive technology’. Explore AI, Robotics, XR and AI-generated music! Prepare to be WOW-ed by Queensland’s leading brains trust of disruptive innovators, mentors and entrepreneurs.

**The Nucleus** River Plaza, Queensland Cultural Centre

## **Science of Beer**

**2pm–2.45pm | Free, non-ticketed**

Beer isn’t just tasty, it’s also chockfull of science – one of humanity’s first great science experiments! Join BeerMatt and Dr Joel as they talk about what makes beer taste like beer, the secrets of brewing, whether there’s a right way to drink a beer, why bubbles go down in a glass of Guinness – and more!

**Presented with The Weekend Edition**

## **Red Rocket 3**

**10am–10.45am | Free,  
non-ticketed**

Red Rocket 3 is a three piece live rock band for kids, a high-energy show which helps kids explore their world through music, games and a whole lot of fun.

## **Space and the flying Emu with Dr Nij**

**11am–11.45am | Free, non-ticketed**

Meet Dr Niraj Lal, the scientist, author and occasional TV star who created Henry the Flying Emu. Blast off with Dr Nij!

## **Juggle Science!**

**12pm–12.45pm | Free, non-ticketed**

Although technically not scientists, did you know jugglers work with science every day? Join STEAM Circus to learn about juggling patterns, shapes, angles and how to predict where your juggling ball will land.

### **UQ Demo Troupe!**

**1pm–1.45pm | Free, non-ticketed**

Ever thought about channelling a million volts of lightning? Putting your hand in liquid nitrogen at 200 degrees below zero? Or maybe taking a nap on a bed of nails?! Join UQ Demo Troupe ... if you dare ...

## **Queensland Museum events**

### **Queensland's Extreme Environments with Gary Cranitch**

**11am–12pm | Level 2, Theatre, Queensland Museum | Adult \$18, Concession \$15**

Join Queensland Museum's internationally renowned photographer Gary Cranitch, as he showcases the revered and stunning landscape of Queensland through his beautiful images.

### **Scientific Illustration with Geoff Thompson**

**1.30pm–2.30pm | Level 2, Theatre, Queensland Museum | Adult \$18, Concession \$15**

Join Queensland Museum's scientific illustrator and deep-focus photographer Geoff Thompson as he explores the ways scientists have captured their images and work through the ages.

## **Films Presented with QAGOMA**

### **The Babadook**

**1pm | GOMA Cinema | Adult \$12, Concession \$10**

Amelia struggles to discipline her son Samuel – his hallucinations spiral out of control and she is forced to medicate him. But when Amelia begins to see a sinister presence she realises Samuel's fears may be real.

## **Systemsprenger (System Crasher)**

**3pm | GOMA Cinema | Adult \$12, Concession \$10**

Inspired by the writer-directors own angry tendencies in childhood, this film examines the environmental and emotional influences that can shape violent and dangerous behaviour.

## **COVID safety**

The health and wellbeing of our visitors, staff and volunteers to the Festival and Queensland Museum is our priority.

Visitors will be required to register contact details on arrival at all events.

We have increased cleaning frequency, handwashing and sanitiser facilities and have installed distance markers for queuing to help keep you safe. You can play your part by keeping the following in mind:

- Stay at home if you are unwell
- Stay 1.5 metres apart from others
- Wash your hands regularly or use our sanitisation stations
- Avoid touching your face
- Cover coughs and sneezes
- Consider downloading the COVIDSafe app to your phone
- Visitor capacity limits apply

## Tips for a sustainable day out

At World Science Festival Brisbane, we are committed to continuous improvement. We have big goals for the future – and we're taking steps each year to make sure we reach our sustainability targets. We hope you can join in, and if we all do a little bit more each year, the future will be bright!

You can help us reduce the environmental impacts of the event with a bit of pre-planning.

- 🌿 Leave the car at home
- 🌿 Bring a cup or a water refill bottle
- 🌿 Use the right bin
- 🌿 Learn about the sustainable development goals via the website
- 🌿 Celebrate Earth Hour at 8.30pm on Saturday 27 March, outside the museum on the Eastern Terrace.
